

History of Grave Recording in Wookey

Toby Fountaine, 2004

The Somerset Record Office in Taunton holds the oldest Entombment book. In this, 1601 names and corresponding years of death, abodes and ages are listed, numbered 1-1600 (with one extra added at the end). Unfortunately, these names are entered chronologically so bear no correlation to burial position. The burials in this book run from February 1st 1813 to January 19th 1948. While this book probably contains many names I have omitted from this new study, their positions remain unknown, making their inclusion here of little relevance.

Mr. Dwelly, in 1885 and c.1914, carried out monumental inscriptions of the remaining graves in the Old Churchyard (held in Taunton). This is useful because some of the inscriptions have now worn away.

Mrs. Perkins, in 1986-87 did a comprehensive monumental inscription survey of all the graves in the New Churchyard (held in Taunton). She also typed Dwelly's inscriptions of the Old Churchyard which are now legible! There have been burials since then which I have recorded.

The Old Churchyard Book is held in Wookey Church (labelled 'Old Churchyard Book' by me). This book contains the names of everyone buried in the New Churchyard and Garden of Remembrance. It appears to have been copied from an earlier book, but this is neither at the Records Office in Taunton nor in Wookey. It is mostly accurate, but there are some gaps, and it hadn't been updated for a long while. The four digit numbers in pencil in the Old Churchyard Book refer to the entry number of the Entombment Book held in Taunton. They are of little relevance (see above).

In 2004, I fully updated these last three references and combined them into the 'New Churchyard Book' which is held in Wookey Church. I have omitted dates of death and ages, as most of this information is available on the headstones or in Taunton. I also constructed a scale map – the only one I am aware of – with positions of the graves correlated with the plot numbers in the New Graveyard Book. The plot numbers remain the same as previous records allowing easy cross-referencing. I also produced a typed index of the data in the New Churchyard Book. This however, is viewable by surname as well as plot number. A copy of my map and index are held in Taunton.

St. Matthew's Church Wookey

Graves by surname

For details regarding year of death and age, refer to headstones or (especially in the old churchyard where they are now illegible) refer to Mrs. Perkins 1986-7 monumental inscriptions study.

Graves are listed under the following abbreviations:

1. Garden of Remembrance (GOR)
2. Old Churchyard (Old)
3. New Churchyard (by row letter and number)
